Shell Scheme packages include wall panels, fascia, Lights, Electrical Sockets and furniture (2x Chair)

Shell Space/ Raw Space standard Area's are 9 Sqm.(3x3 mtrs), 4 Sqm(2x2mtrs). However space can be booked in multiple of Standard area.

PRICE INCLUDES

- Full profile and product category listing the event guide
- Full listing on NISS Website

* Service Tax is applicable

* Indian Rupees Rates are only applicable for companies registered in India

NISS-2017

North India Solar Summit

<http://www.niss.org.in>

JOIN ONE OF THE MOST PROMINENT SOLAR EVENTS IN INDIA

3 Days Full of Business Opportunities !

Whether you have an extensive experience or your are new to the industry, this 3-day Exhibition will inspire you with new business ideas and you will be able to meet face-to face with myriad of suppliers, distributors, advisory groups, agencies and various other organizations. In addition to Green Collar's and Industry Professionals from the World, there will be also leading experts, top investors, key decision-makers and innovation researchers. No other event in the Region offers comparable access to such a large and influential network of solar energy stakeholders.

LOCATION AND VENUE

Lucknow the "City of Nawabs" also known as the Golden City of India is the ideal location to organise North India Solar Summit. Geographically located in the center of North India: Lucknow is the Capital City and the largest City of Uttar Pradesh. Today, Lucknow is a vibrant City that is witnessing an economic boom and is among the top fastest growing non-major metropolitan cities of India .The unique combination of its cultured grace and newly acquired pace is its most promising feature that augurs well for the future.

Welcome to NISS (North India Solar Summit)

Indian Industries Association (IIA) welcome you to the world of endless opportunities in one of the world's biggest solar market. An approximately 400 million population market, so diverse, so wide and so multifarious that it will not only challenge your ultimate marketing skills, but also make you hone your company strategic tools. There is a market which is seething with an insatiable appetite for power, so what are you waiting for!!!

Come and explore this wonderful opportunity, Welcome to NISS- North India Solar Summit 2017.

Why fly with exponentially growing North Indian Solar Movement?

The North Indian Energy Sector is today at a crucial juncture of development. In the last many years, India has attained the status of the second fastest growing economy in the world and the concomitant demand for energy has been putting pressure on its supply sources. Increasing population, hectic economic activity and rising income levels are giving a further push to the demand for energy in North India.

Growing ahead, the North Indian states are aiming at self-sufficiency in power production to meet the increasing demand-supply gap. Renewable energy technologies like solar energy have the ability to solve the above problems. The region is blessed with abundant sunshine & has the potential to propel itself as the biggest market for solar power in the coming years.

There can be no better way to realize the potential of this market but by being a part of the biggest solar event of the region this year. We once again welcome you to this grand event of the year- NISS-2017.

Come, be a part of this Solar Revolution

The North Indian States present a plethora of opportunities and have huge potential for Solar Energy. There are about 330 clear sunny days in most parts and Solar Energy (Direct irradiance) potential for North India is 4-7(KWh/m²/day).

There is a huge potential for Solar Energy applications in grid-interactive Solar power generation plants, Solar thermal Industrial applications, rural electrification, roof top-based applications and mobile towers in off-grid areas, as well as for domestic water heating. This is the right time to invest in North India. It will therefore be an excellent opportunity to develop further business in this region, which is destined to grow at a scorching pace over the next may years.

Who should embellish a stall at NISS ?

- Solar System Integrators
- Solar Cell Manufacturers
- Solar Module Manufacturers
- Module Manufacturing Line Suppliers
- Solar Farm Developers
- Solar Water Heaters Manufacturers
- Solar Street Lights & Home Systems Manufacturers
- Battery Manufacturers
- Inverter Manufacturers
- Solar BOS(Balance of System) Manufacturers
- EPC Companies
- Solar PV/Thermal Installers and Contractors
- Suppliers of Raw Materials
- Solar Turn Key Solution Providers

Solar Enthusiasts you will meet

- Builders & Solar Form Developers
- Construction Professionals
- Projects Heads
- Investors
- Trade Buyers and Business Buyers
- Industrial Purchasing Managers
- Engineers and Installers
- Green Consultants and Experts
- Local Agents and Distributors
- Local & National Government Institutions
- Domestic and International Associations
- Energy Storage Systems Industry Executives
- Transmission & Distribution System Operators
- Policy Decision Makers
- Media and Publishers
- Architects
- Commercial & Domestic End-Users

Solar Networking

- It will provide a unique platform to forge new opportunities, build relationships, and establish new partnerships in research, development, manufacturing and distribution for Solar Energy across North Indian Region.
- Position your brand in the market as a provider of high quality Solar products and services.
- Raise brand awareness
- Understand Commercial opportunities in the "Electrifying" Solar Industry.
- Testing ground to understand local requirements, expectations, standards and performance.
- It will acquaint you with up-to-date Solar technologies and will provide you with an excellent opportunity for market exploration of the Region.
- Network and Share knowledge with like-minded Industry peers from around the world.
- Gain new ideas and insights to aggrandize your business.
- Our goal is to provide a "One-Stop Solution" for all of your needs at one convenient location.
